

COMPANY PROFILE

A FULL-SERVICE LIGHTING AND TECHNOLOGY
SOLUTIONS PROVIDER

OUR STORY

For over 19 years, US LED has been a full-service provider of general lighting, sign lighting, and technology solutions. Ever since its early days in LED, the company's growing industry expertise has quickly transformed it into a major manufacturer offering a wide spectrum of products and services.

2001

US LED Founded In Houston, TX

LED technology gained momentum as the standard for energy efficiency and the primary alternative to traditional lighting systems.

2009

US LED Expanded LED General Lighting Portfolio

Building on a storied history in sign lighting, US LED focused on expanding its indoor and outdoor LED general lighting portfolio.

2011

US LED Grew Into A Full-Service Solutions Provider

With a complete portfolio of commercial lighting and technology solutions, US LED had completed multiple major national programs as large as \$26 million and over 6,000 locations in a single year.

ADVANTAGES FOR YOU

Ultra-Long Life Product Lifetimes

Lumen maintenance approaches or exceeds 200,000 Hours (L70).

Industry-Leading Ten-Year Warranty

A warranty that provides greater safety, less hassle, and more peace of mind.

Most Responsive Manufacturer In The Industry

A single point of contact that will do the right thing, the right way, and on time.

WHAT WE OFFER

Industry Expertise

Over 19 years in business and over 20,000+ successful installations using our lighting and technology solutions.

General Lighting

Unique portfolio of indoor and outdoor commercial LED lighting solutions.

Sign Lighting

Comprehensive selection of commercial sign lighting products.

EV Chargers

Plug-and-play charging solutions that can accommodate on-site guests and a fleet of commercial electric vehicles.

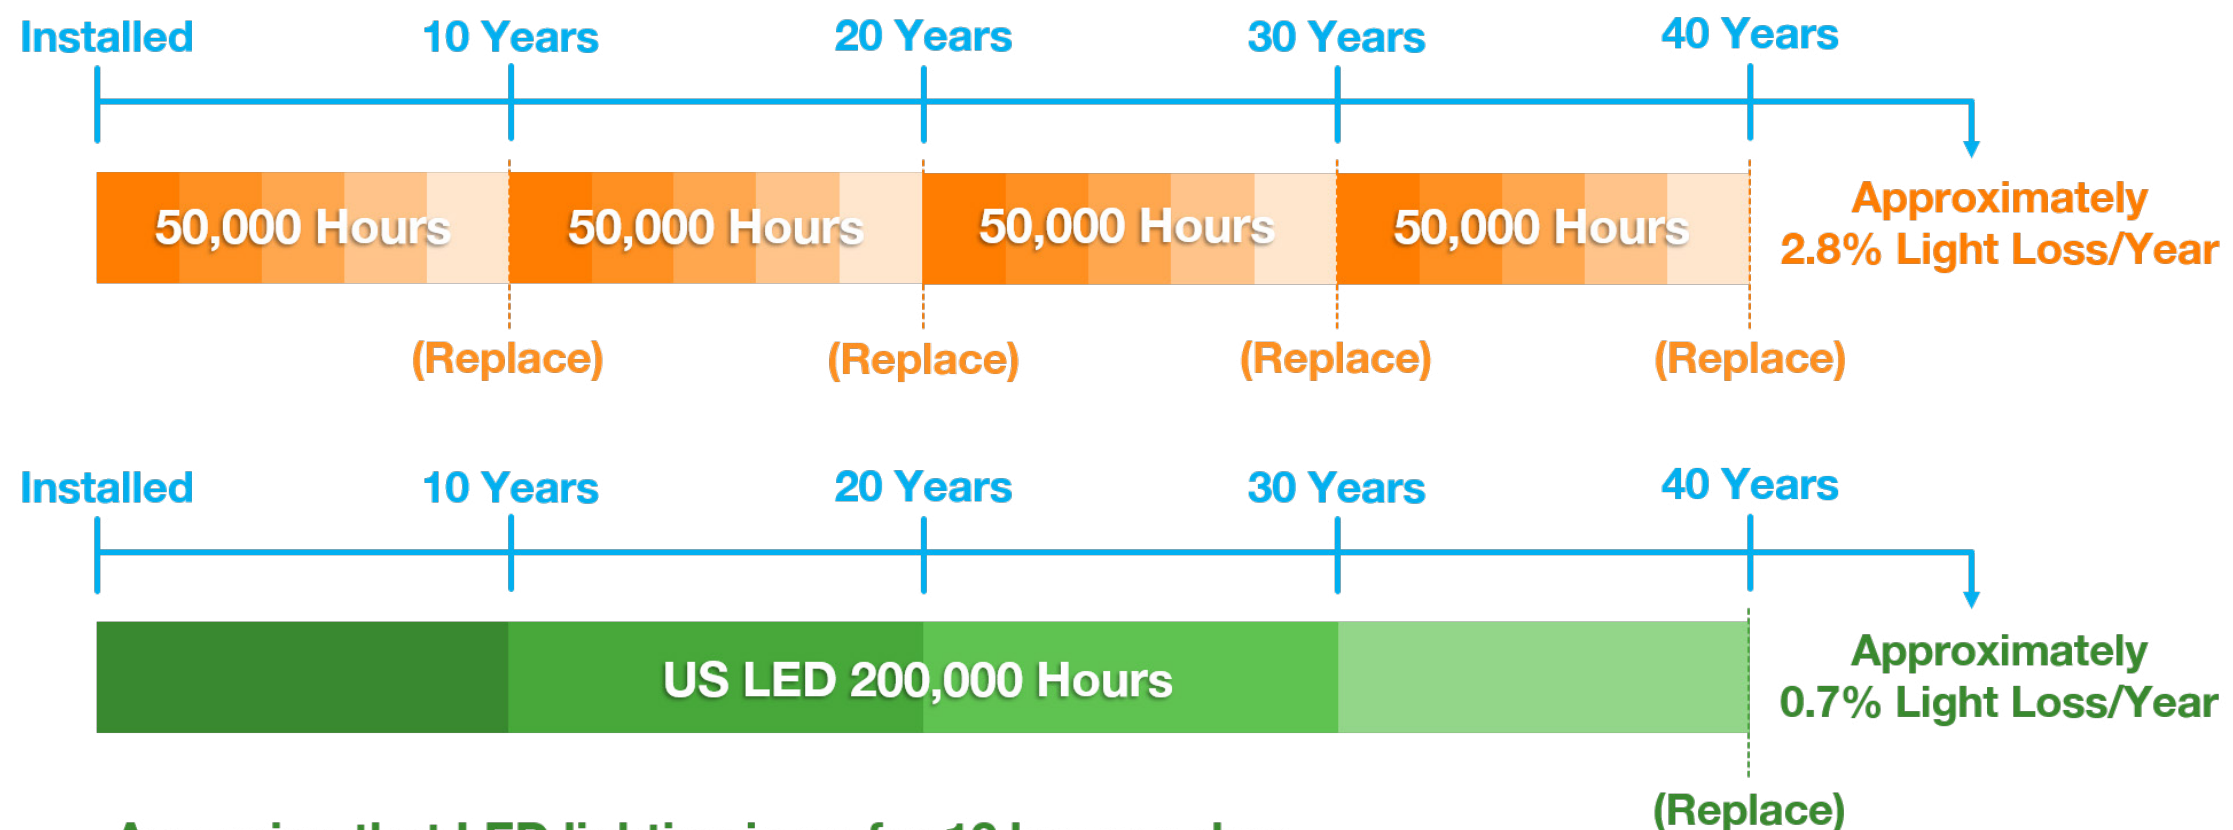

Technology

Digital, scalable, and flexible building technology solutions for nearly every commercial installation.

GOING BEYOND INDUSTRY STANDARD

L70 is the estimated number of hours of use where initial lumen output has degraded by 30% when originally installed. When typical industry standard is 50,000-100,000 hours, US LED continuously offers ultra-long lifetime luminaires that approach or exceed 200,000 hours.

Assuming that LED lighting is on for 12 hours a day:

- Typical 50,000-Hours L70 lifetime luminaires loses 30% of light after only 10 years.
- US LED 200,000-Hours L70 lifetime luminaires loses 30% of light after 40 years.

EVERYTHING YOU NEED

- Advanced Engineering & Design-Build Services
- Single Source of Manufactured Products
- Photometric Layouts & Studies
- Project Commissioning
- Dedicated Project Management
- ROI Analysis, & Rebate Management
- Certified Installations
- Maintenance, Repair, & Warranty Support

General Lighting Solutions

- Area/Site
- Parking Lots
- Parking Garages
- Canopy/Soffits
- Wall Mounted
- High Bays
- Industrial Linear
- Troffers/Flat Panels
- Sports Lighting
- LED Tubes

Sign Lighting Solutions

- Linear Sign Lighting
- Wall Washing
- Channel Letters
- Sign Cabinet Modules
- Sign Cabinet Kits
- Signage Accessories

Technology Solutions

- EV Chargers
- Motion Detection
- Photo Sensing
- Circadian Rhythm Lighting
- Scene/Zone Lighting
- Daylight Harvesting
